## SUMMARY

Passionate and results-oriented MERN Stack Developer with a strong foundation in building robust, user-friendly, and performance-driven web solutions. Proficient in full-stack development, including designing RESTful APIs, managing database integrations, and creating responsive frontend interfaces. Committed to writing clean, maintainable code and continuously learning modern frameworks to solve complex problems.

## EXPERIENCE

**Praedico Global Research Pvt. Ltd.** Jan 2024 – June 2024  
*Web Developer (MERN)* Gwalior, India

- Engineered responsive web applications using React.js and Tailwind CSS, reducing initial page load times by 20% through code splitting and lazy loading.
- Developed secure RESTful APIs with Node.js and Express, handling data processing for 500+ daily active users.
- Integrated Cloudinary for optimized asset management, decreasing server storage costs by 15% while maintaining high-resolution image delivery.
- Implemented user authentication using JWT and best-practice security protocols to protect sensitive client data.
- Collaborated with a cross-functional team to integrate Swiper.js, enhancing UI interactivity and increasing user session duration.

## PROJECTS

**Student Attendance Management System** [↗](#) Academic Project

- Built a web application to automate student attendance and replace manual paper records.
- Created secure login roles for Admins and Faculty to manage student data.
- Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap.

**Reelify** [↗](#) Personal Project

- Developed a dynamic video content platform featuring an immersive, infinite-scroll feed similar to popular social apps.
- Implemented seamless video playback and optimized component rendering for high performance across devices.
- Tech Stack: HTML5, CSS3, JavaScript.

**Personal Portfolio Website** [↗](#) Personal Project

- Developed a fast, responsive portfolio website to showcase projects and professional experience.
- Designed a clean, mobile-friendly user interface to ensure accessibility across all devices.

## TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), PHP, HTML5, CSS3, SCSS, SQL
- Frameworks:** React.js, Node.js, Express.js, Bootstrap, Tailwind CSS
- Tools & Libs:** Git, GitHub, Swiper.js, Cloudinary, Postman
- Database:** MongoDB, MySQL
- Concepts:** RESTful API Design, Responsive Web Design, Agile Methodology

## EDUCATION

**Madhav Institute of Technology and Science** 2024  
*Master of Computer Applications (MCA)* Gwalior, India

**Jiwaji University** 2022  
*Bachelor of Science, Computer Applications* Gwalior, India
